- NextJs
- Jenkins
- AWS
- Docker

Professional Summary

I am a Software Engineering research student at the Free University of Bozen Bolzano. Over the past half decade, I have been studying and developing software solutions for information and embedded systems. I aspire to heal the Nigerian Educational system through technology, and contribute effectively to the development of tech startups in Nigeria.

Work History

01/2021 - Current
Crestmonds | Dartford, England
